

Greeting Small Frys!

We are starting Week 4 of Home Learning and it is nice to see how many of you are producing work! We have spoken to a lot of you and your parents over the past 2 weeks and will continue to make home contact. Remember, if anyone has questions or concerns about anything, you can communicate with us and each other at any time.

There are several ways we can communicate...Some of you are saying you do not know how to post your work. Just e-mail it to one of us. If it is Math, take a pic and e-mail it.

- (1) **Microsoft Teams** – Mr. Nicol has our whole team set up and you can access it using your school e-mail
- (2) **Teacher Pages** – Your weekly work will be posted here, including the Math as usual
- (3) **Teacher E-mails** – cindy.fortune@nbed.nb.ca, Ginette.brewster@nbed.nb.ca, heather.campbell@nbed.nb.ca, David.good@nbed.nb.ca, Jason.nicol@nbed.nb.ca

When you finish any work on any day, you can submit it for feedback – you do not have to wait until the end of the week. Please read all directions on the Teacher Pages for each subject carefully as lessons are not always the same from week to week (go back and look at last directions).

LA – Same as last week – but read 3 -5 new articles and prepare a summary of one. See notes and videos of summaries on Teacher Pages. If you have only done 1 writing so far, you are on Week 2 Writing, not Week 4.

French – Same as last week: work on Projet Module and Duolingo

Science – No Science assignment this week as not enough people have finished the previous 2. Use this time to catch up on Science or other subjects.

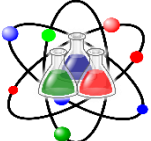

Math – Work is posted on the Teacher Pages as usual. Please follow in order as some of you are skipping lessons. Send all work and Check-ups to Mrs. Fortune

Health, Wellness, Arts

You can decide what you'd like to do with this, and maybe drop us a short blurb (text) or video at the end of the week. This way we can share our achievements!

Some suggested activities (but, again, you can decide and be creative) ...

Art- Art Journal Entry #1- Sunshine, Symmetry and Scale- Combine these Art Elements and add some sunshine! An example of this journal entry is on my Teacher page and my Twitter account @STUDIO628. (- Mrs. Nicol)

Physical Activity – You can keep a journal or check list or take a video of any physical activity you did throughout the week: exercises, piling wood, walking your pets, doing yoga, cleaning the bathroom...

Music – You can record/video yourself playing a musical instrument or singing or lip syncing playing an air guitar...

Reading – You can show us a good book you are reading and/or record yourself reading an excerpt from it...

School- Wide STEM Challenge- if anyone is interested, you can find details on our SMS website.

IMPORTANT NOTE from Mrs. Chaisson:

Hello SMS students!

I hope everyone is keeping healthy, both physically and mentally. I know that some of us may be feeling down or frustrated these days! If you feel that you need help managing or have questions or concerns about our current situation, please feel free to e-mail me! I will also be updating my teacher page on the SMS website. This will include websites to get real information, mental and physical health tips, phone numbers and websites where you can access counselling. Remember, your SMS family is thinking about all of you!
