

# Tower STEAM Challenge

## Materials:

- 5 materials of your choice – as much of each of these materials that you would like (Please list the materials you will use.)

## Guidelines:

- Your challenge is to create the tallest tower you can, using any materials you have at home. Anything you can think of is acceptable. Be CREATIVE!
- You have no real timeline as we are looking for you to submit a picture of your tower by the end of the week via email.

(Please send to [patti-jo.cormier@nbed.nb.ca](mailto:patti-jo.cormier@nbed.nb.ca) subject: STEAM Tower Challenge)

- You have all week to build your creation.
- These creations, if sent via email, will then be shared on the SMS Facebook page.
- Note: please follow our regular steps, when completing a challenge and record these on paper or document. Was it a success? (Yes or No) What

worked well? What would you change? (Be specific and include a plan of what you intend to do to complete the challenge – sketching is necessary.)

\*Good Luck “tower”ing over everyone else... pun intended. 😊
