Choose grades 6-9 and begin by **choosing one reading** from the **Week 4 – Day 1** choices. (There are four texts to choose from each day.) **If you find the text too difficult go back and choose grades 3-5 and follow the same steps.** At the end of the week you will have read 5 texts on various topics. You will see there is a writing assignment at the end of each of the texts. You need to **choose one writing assignment from the week's readings to complete.**

Important to Remember:

- We always read texts from beginning to end at least twice to make sure we understand.
- Writing assignments should have a draft and then a final copy. (This may be done on the same document but means that you have gone over your writing and read out loud and

made any necessary changes. Do not forget the basics – capitalization, punctuation, sentences!

- An “essay” response needs to be at least 3 paragraphs (a beginning, a middle and an end) but can be more. A paragraph needs to be 5 – 8 sentences. (Sentences need punctuation and should be different lengths.)
- On the side of each reading there is an option to listen to the text aloud. To do this, click on “Text-to-speech”. I suggest you try to read through it at least once first and then read along the second time.

***You can submit your completed work in the form of a document through email or send a picture of your work if you do it paper pencil.**
