MESSAGE FROM THE DISTRICT!

Good morning to all of our 7 seas family,

Anglophone North School District has always looked for ways to share and celebrate learning. This sharing and celebration has often taken the form of face-to-face gatherings like STEM Fest and Discover. Just because we can't gather students and educators together, doesn't mean there isn't innovative and unique learning taking place in homes across our district.

Our teaching and learning look different right now and we want to find a different way to share, celebrate and support this learning.

We are inviting teachers to submit examples of student home learning.

These examples of learning might include something a student shared with you that:

Made you proud

Surprised you

Went beyond expectations

Made a change in their community

Each week we will make a random draw from all submissions for a prize package provided by Brilliant Labs to support your home learning activities.
